Dr. LaTeX Beamer
How I Learned to Stop Worrying and Love the Slide

Konqi Konqueror

October 29, 2013

Outline

Outline

Prerequisites & Goals
Knowledge is a brick wall that you raise line by line forever

LaTeX
- Obviously some basic LaTeX knowledge is necessary
- Some more features will be provided here

Beamer
- You'll learn them by looking at this presentation source

Goal
- Learn how to make well structured slides
- Using a beautiful theme (congrats to the Oxygen team!)
- Take over the world
- Relax...

Outline

Sections, Frames and Blocks
Put everything into boxes

The current section is "Basic structuring". And the current frame is what you have on the screen right now.

A beautiful block

A block has a title, and some content. You can put in a block almost everything you want that is provided by LaTeX. For example math works as usual:

$$\sum_{i=1}^{n} i = \frac{n \times (n+1)}{2} \tag{1}$$

Also works outside a block:

$$\sum_{i=1}^{n} i^2 = \frac{n \times (n+1) \times (2n+1)}{6} \tag{2}$$

Different type of blocks
Weeeee! Colors!!

Standard block

- A standard block, used for grouping
- Obviously can contain itemizes too...
    - And nested itemizes...
    - of course!

Alert block

WARNING: Something very important inside this block!

Example

Note that examples are displayed as a special block...

Outline

Highlighting
Hey! Look here! here!

A regular block

- Normal text
- Highlighted text to draw attention
- "Alert'ed" text to spot very important information
- Alternatively you can
    - "Alert" the item itself
    - Or "Highlight" it

If it's very very important...

... you can "alert" in an "alertblock"
Ewww, nasty, heh?

Overlay effects
Keep the suspense!

Time bomb

1. Two more to go
2. One more to go
3. Last chance...
4. BOOM!

And now?

Enter the secret section

Contributing to this beamer style

We want you !

Why?

- Beamer is hot!
- This style deserves to be improved

How?

- Grab it
- Improve its LaTeX code
- Use you artistics skills
- Document it
- Help other people to use it
- Use it...

- LaTeX Beamer
  `http://latex-beamer.sourceforge.net/`

- KDE Presentations
  `http://www.kde.org/kdeslides/`
